BELLEFONTE AMATEURS.

Appear in Minstrelsy at Garman's Opera House.

FRIDAY EVENING JUNE 5TH

All the Old Time Favorites and Some New Faces—Greeted by a Crowded House—A Decided Success.

FOR THE HOSPITAL'S BENEFIT

The wonderful street parade given by the Bellefonte Amateur Operatic Minstrels Friday at noon created a sensation and led the people to expect something great at their evening performance and we believe we can justly say that no one was disappointed.

This company of local merry makers gave one of their delightful minstrel entertainments in Garman's pretty play house Friday night to an audience composed of Bellefonte's most cultured people and which filled every seat in the house and left standing room at a premium. However this is not to be wondered at as they only repeated the successes of former years which gave them a reputation that will last through the years.

As in all minstrel shows the performance opened with an overture and first part. The stage setting for this part was very pretty indeed and reflected credit on the taste and judgement of the management.

Dr. Melvin J. Locke, whose ambition to represent the 21st district in congress was nipped in the bud made an excellent interlocutor and we would kindly suggest that if politics and the medical profession does not prove lucrative enough be turn his attention to minstrelsy where we feel assured he would be a star of the first magnitude.

On the ends were the old time favorites James E. Harris, Joe Lose and Hard P. Harris with some new faces, Strohm Lose, Chas. Brachbill and Louis Daggett. All were good but Jim Harris and Louis Daggett were especially funny.

During the first part Hard P. Harris sang "You will Have to Read Your Answer in the Stars", Frank Curtin rendered "The Sentinel Asleep" and "Mandy Lee" for an encore. He has a beautiful voice, excellently cultivated.

Strohm Lose sang two very funny coon songs which drew forth hearty encores.

George R. Meek sang the beautiful ballads "Your Own" and "In the Valley of Kentucky" and did it well. He was however missed on the ends as he is the premier in this line of work among our amateurs.

"Can't you take My Word" was sang very acceptably by Jim Harris, who was called back several times.

"Voices of the Night" a base solo by Philip D. Waddle was one of the best features of the first part and was very beautifully rendered.

The first part was brought to a successful close by the singing of the very funny coon song "Ephasapha Dill" by Joseph Lose and chorus.

Part two was opened by a clever sketch by Geo. R. Meek in which he introduced several local hits and was compelled to respond to repeated recalls.

Guy McEntyre and Joe Lose introduced one of the cleverest features of the program. It was a bit of a burlesque on "Nell Gwynn" and "A Night Off" previously played here by local talent.

This was followed by a Pot Pourri of amateurs introducing a clever cake walk participated in by Louis Daggett and Strohm Lose, Chas. Brachbill and Guy McEntyre and led by Joe Barnes. These are known as the Imperial Cake Walkers.

Billy Rine gave a rattling good clog dance the Tumbling Forgerines gave some clever tumbling. This quartette was composed of Harry Rine, Harry Peters, Fred Gehret and Homer Thompson. Then Joe Lose sang the latest hit "The Jonah Man."

The most tremendous ovation received by any of the performers was that tendered the Peerless Wesley H. Spangler, who presented for the first time on a Bellefonte stage his bewildering "Watch Me Closely, I May Deceive You". Wesley surprised his friends by his work. The program states that "he is positively without an equal in Hindo bungling, making the laws of gravitation look like a Bellefonte Council Ordinance and chasing all other Wizzards back to the Pines". This explains it better than any words we can utter.

The show was brought to a successful close by the beautiful terpsichorean spectacle "The Double Sextette" from the Sleeping Beauty and the Beast. Those who took the part of ladies in this feature were Hard P. Harris, George R. Meek, Frank Curtin, Strohm Lose, Chas. Larimer and Wm. Rees. The gentlemen were Philip D. Waddle, Frank Newbaker, Louis Daggett, James Harris, Russel Blair and Ambrose Sloteman.

The band was under the direction of Samuel Bryant and was made up as follows :

Walter Meese, bass; Jas. Rider, Clayton Rote, baritone; Scott Lose, Harry Lose, tenors; Boyd Cox, James Krebs, trombones; Chas. Rote, Lloyd Flack, Philip Garbrick, Harry Garbrick cornets; Chas. Flack, clarinet; Chas. Fowler, Clarence Rhodes and Wm. Rine, drums and cymbals.

The Orchestra was under the direction of C. J. Smith, Miss Mary Ceader, piano; Frank Deitrick, F. P. Thurston, 1st violins; Henry Dickson, 2nd violin; Samuel Bryant, cornet; Louie Hill, clarinet; Harry Keister, trombone; Henry Brown, flute; Chas. Fowler, drums and taps.

The proceeds of the entertainment were for the benefit of a worthy cause, the Bellefonte hospital and it is said $150 will be realized clear of expenses.

THE LEE STATUE

Strong Resolutions Adopted by Department of West Virginia.

We publish the following article by request. It is taken from *Industrial School News:* a paper published at the Soldiers Orphan school at Scotland, Pa.

CLARKSBURG, W. Va., April 30.—The twenty first annual encampment of the Department of West Virginia, Grand Army of the Republic, closed today. Major A. C. Moore, of Clarksburg, was elected grand commander for the ensuing year. Grafton was selected as the place for holding the next State encampment. In part the resolutions adopted were as follows:

"WHEREAS, We learn that the Virginia legislature has a bill to appropriate money to place a statue of Robert E. Lee in Memorial Hall at Washington;

"WHEREAS, The said R. E. Lee was educated at West Point Military Academy and took the oath to defend the Constitution against all enemies both foreign and domestic, and in 1861 laid aside the blue United States uniform and joined the enemy of the American Union, and by his power and influence thousands of our comrades were slain in battle and many perished in rebel prisons, and hundreds of fathers, mothers, widows and orphans were left to mourn for those who did not return: and

"WHEREAS, Abraham Lincoln declared in his day that treason should be made odious;

"Resolved, That we most earnestly protest against placing the statue of Robert E. Lee in our national capitol; and

"Resolved That Statuary Hall shall not only keep free from Robert E. Lee's statue, but keep forever free from anything that will encourage disloyalty or would emulate treason or rebellion.

CHILDREN OF CENTRE

Held a Re-Union at Fairmount Park on Saturday.

All the former Centre countains who reside within a radius of twenty-five miles of Philadelphia, or at least 600 of them, attend a re-union held Saturday at Belmont Mansion in Fairmount Park, Philadelphia.

A mighty feast was prepared by Centre county's own daughters. All the vegetables, the game and even the flowers that graced the groaning table came "from home."

Thomas Farner, of Chester, and his "Roosevelt" family were the first on the scene, arriving shortly after 1 o'clock and after that the guests came on every trolley car.

During the lull in the eating old time songs were sung and old stories told by the talented folk from Centre. There was also music with trills in it by Professor William T. Meyers.

Six hundred lusty voices closed the reunion with "Auld Lang Syne." The following committee took charge of the merrymaking: Dr. Roland G. Curtin, Dr. S. Gray Mattern, L. Ollin Meek, William S. Furst, R. M. Magee, W. F. Reber, Dr. Stuart C. Runkle, Professor George P. Bible, Ira D. Garman, Dr. George P. Rishell, Thomas Loughery, Clayton Brown and Charles McCafferty.

The public, particularly the ministers and physicians, are warned to be on the lookout for a trained nurse fraud, who has been doing the neighboring towns. She is about forty years of age, slightly gray and prepossessing appearance. She represents herself as a trained nurse, who has been deserted by her patient and is consequently without funds.

SOME LIVE LOCAL NEWS.

Our Post Office to be Changed From Its Present Location.

MOVES TO TEMPLE COURT JULY 1st

An Exciting Chase After an Escaped Prisoner who is Now Safely Lodged in Jail at this Place —Three Men Killed in Wreck.

INTERESTING PERSONAL MENTION

The much mooted question which has agitated our town for the past two months and divided it into two hostile factions, an uptown and a down town faction has at last been settled, at least so we are reliably informed. We refer of course to the location of the Bellefonte Post Office.

Postmaster W. W Montgomery received official word this morning from the post office department at Washington, D. C., directing him to make preparations for moving the post office from its present location in Bush Arcade to the vacant store room in the Temple Court, formerly occupied by V. J. Bauer as a shoe store. The office is expected to be comfortably settled in its new location by the 1st of July.

The new room in Temple Court will be specially fitted up with new P. O. furniture and no doubt will make a cosy and comfortable room.

It is reported that the carriers will occupy the basement where their desks will be located and where they will make up their mails. We doubt the wisdom of this move if it is true.

The subject of moving the Post Office was first agitated about two months ago when a post office inspector was here to investigate the situation in regard to re-leasing the present room upon which the five year lease held by the government expires the 1st of July. He made inquiry and examined several of the up town rooms and made a report to the department.

Petitions were circulated in the interest of both locations and considerable pressure was brought to bear on the powers that be.

There were other rooms under consideration, among the number being a room in one of E. W. Crider's buildings and the vacant store room in Eagle Block.

We were not in sympathy with the movement to change the location of the P. O., for reasons already stated, but like the balance of the down town people will have to bow to the inevitable.

Four Killed in Collision.

Clearfield, Pa., June 10.—Four men were killed and three men badly injured in a collision between a coal train and a freight train three miles east of Osceola, on the Tyrone division of the Pennsylvania Railroad. The men killed are Ogel Burley, engineer, and his fireman, of the freight train; Jacob Boyer and his fireman. Robert Wilson, of the coal engine, which was pushing a heavy coal train up a grade. When the train was cut near the top of the mountain between Osceola and Tyrone, Boyer's engine could not hold it and the engine and 14 cars were pushed back on the advancing freight.

AN EXCITING CHASE

Prisoner Escapes from Officers and is Recaptured.

After once being safely landed in Snow Shoe the scene of his crime Antonio Pintch, a self confessed burglar, escaped from his captors and for two whole days roamed the mountains about Snow Shoe, wearing a large pair of hand cuffs. His capture only resulted after one of the most exciting man hunts that has ever occured in that part of the county.

Pintch was captured at Jersey Shore Thursday by Chief Norton of that place who received a reward of $25.00 for so doing. He was taking to Snow Shoe to have a commitment made out, prior to taking him to the Bellefonte jail Saturday evening after the commitment had been secured Pintch was left alone in a vacant room in the hotel, securely handcuffed, and escape was thought to be out of the question.

The wily foreigner, however, managed to leap through the window, reached the ground and make his escape, before the officers knew what had happened.

They immediately gave chase and then followed one of the most exciting man chases that part of the state ever witnessed. For two days and two nights it continued and early Monday evening the constable and his men came upon Pintch, still securely handcuffed and half dead for water and food. He was arrested and removed to the Bellefonte jail without delay.

Pintch, who is a Polander and who has lived in this country only a short time is a slick article and no mistake.

IN THE TOILS AGAIN.

A Notorious Colored Woman Heavily Fined for Drunkenness.

Burgess Walker is showing by the determined stand he is taking in the matter that he has made up his mind to put a stop to the lawlessness that exists among a certain class of our colored population. For some time past, they have been disturbing the peace and good order of our town to such an extent that it has become unbearable and any step the Burgess may take tending to relieve the situation will meet with the hearty approval of the people of Bellefonte.

Monday afternoon Jane Lee, colored, was arrested on the charge of drunkenness and disorderly conduct and confined in the lock up. The same evening at 7:30 o'clock she was given a hearing before Burgess Walker in the Police station at the Water Works. The offenses complained of were committed on Wednesday night, June 3 while the Sparks circus was in town and on Friday afternoon following. On one of these occasions she did a disrobing act on the streets and also gave vent to her feelings by singing and dancing.

The witnesses for the prosecution were Mrs. Mary Toner, Miss Bessie Toner and Mrs. Charles Haines of Logan street and Isaac Thomas jr. All testified to her drunkenness and disorderly conduct.

H. Y. Stitzer Esq., was the attorney for the defendant and the only witness called was Jane Lee herself. She admitted that she drank *occasionally* but denied the disorderly conduct.

The Burgess lectured her severely and found her guilty on the charge of drunkenness. He fined her $2.00 and the costs which were $7.50 making a total of $9.50. In default of this amount she was sent to the coop for a period of five days where she will remain unless some philanthropic friend furnishes the spondulix to pay her fine and costs.

Death of Mrs. John Carper.

On Friday the angel of death entered the Carper home at Linden Hall, and carried hence into the home above the spirit life of Mrs. John Carper. She will be greatly missed within the community where she lived, for her life was filled with kind deeds and acts of charity. Her life was one devoted to her home and church, and as long as her health permitted she was always seen in her usual place in the house of worship.

She leaves one son, John and a daughter Mary to mourn her loss in the home. Her age was 84 years 7 months and 16 days. The funeral occurred on Monday morning at 10 o'clock, conducted by Rev. A. A. Black of the Reformed church of Boalsburg.

A Fire at Tyrone.

The residence of Zach Steele at Tyrone caught fire Tuesday morning. Zach is an old Bellefonte boy. Tuesday's Tyrone *Herald* in Speaking of the fire says:

"A 7 o'clock alarm called the fire department out this morning. The blaze proved to be in the house of Zachary Steele, 1149 West Fifteenth street, which was "outened" by an impromptu fire brigade before the regular fire laddies got into position to attack the fiend. The fire was inside the weather-boarding next the chimney and water poured in from above caught the flames in their incipiency, and before they burst forth from their imprisonment were forced to surrender completely to the pressure of the "home guards."

Wedding Bells Peal Forth.

Just at the noon hour Wednesday Miss Lizzie Gross of Axe Mann and Mr. Ira Proudfoot, of Altoona, were happily joined in marriage at the Catholic Parsonage on Bishop street by Rev. Father McArdle. Miss Mary Gross, a sister of the bride was the bridesmaid, and Mr. J. F. Johnston, of Tyrone, was best man. After the wedding ceremony was performed the bridal party drove to the home of the brides parents, Mr. and Mrs. Jacob Gross where a sumptuous wedding breakfast awaited them and where quite a number of their friends had gathered to wish them happiness and success throughout life. The bride received a number of very useful and pretty wedding gifts. They left on the afternoon train for Atlantic City where they will spend their "honeymoon." After which they will make their home in Altoona where Mr. Proudfoot holds an excellent position with the Pennsylvania Railroad Company. This paper wishes them a long life full of happiness and success.

PRESIDENT'S TRIP ENDED

Given Hearty Reception on His Return to Washington.

TRAVELED OVER 14,000 MILES

Trip Just Completed Is One of the Most Remarkable a President Ever Took—Made 265 Speeches and Ignored Many Requests.

Washington, June 6. — President Roosevelt returned to Washington last night from his memorable trip of over two months through the west. He was given a hearty reception by the people of the capital, who lined the sidewalks as his carriage, escorted by the battalions of High School Cadets, was driven to the White House. The president cordially responded to the greetings given him and repeatedly stood up in his carriage and waved his hat and bowed his acknowledgements. He looked the picture of health.

There was a large gathering of officials at the Pennsylvania Railroad when the president arrived. They included Secretaries Root, Hitchcock and Cortelyou and Postmaster General Payne, District Commissioners West, Macfarland and Biddle, Captain W. S. Cowles, the president's brother-in-law, and Colonel Symons, the superintendent of public buildings and grounds. The president spent a very few minutes in exchanging greetings with the assembled officials. He talked longer with Postmaster General Payne than any of the others, the latter throwing his arms about the president and apparently whispering to him. The president, accompanied by Captain Cowles, in full uniform, then entered a carriage, and with his party, which, besides the officials at the station, included Attorney General Knox, Secretary Wilson and Senator Beveridge, of Indiana, were escorted by the battalion of High School Cadets along Pennsylvania avenue to the White House grounds. At the entrance to the White House grounds the cadets halted, and the president and his party passed them in review. The avenue was lined with people, and the applause which greeted the president on every hand was outspoken and cordial.

The trip just completed has been in some respects the most remarkable a president ever took. Mr. Roosevelt and his party traveled over 14,000 miles on railroads and several hundred miles in stage coaches and carriages, but not an accident marred their journey. Not five minutes delay was occasioned during the whole trip on account of train conditions, and the schedule adopted by Secretary Loeb before the party left Washington was carried out with military precision. Rarely was the train late in reaching its destination, notwithstanding that it passed through the flooded district of Iowa. The health of the president and his party, too, was remarkable. Not one member of the party was seriously ill and few calls were made on the physician on the train.

During the 65 days that the president spent on the road he made 265 speeches, and had it not been for Secretary Loeb's firmness he would have made nearly double that number. One of the remarkable features of the trip was the non-partisan spirit displayed in the reception of the president everywhere. Democratic as well as Republican mayors united in extending him a welcoming hand, while at Springfield, Ill., former Vice President Stevenson rode in the carriage with the president.

Hebrews Thrown Into Prison.

Tripoli, North Africa, June 6. — Twenty Hebrews, comprising a specially appointed commission, have been arrested and imprisoned for refusing to comply with the governor general's orders to assess the Hebrew community for a military exemption tax. The commission alleges that the extreme poverty of the Hebrews renders the payment of the tax impossible, and points out that the Mohammedans are not forced to pay the tax nor to perform military duty. The Hebrews have suspended all business as a protest against the governor general's action.

Soft Coal Operators Enjoined.

Chicago, June 6.—A perpetual injunction preventing any combination of certain coal operators in Illinois and Indiana to sell their product through one distributing agency and to regulate prices was issued by Judge Kohlsaat. This was the end of the coal case which attracted much attention last winter when the operators were indicted. The indictments were quashed and action later begun by District Attorney Bethes in the United States court.

WEDDING OF MISS DE VELASCO.

A Lady Well Known in Bellefonte Weds Wealthy Man.

A wedding of more than ordinary interest to Bellefonters was that celebrated at the Church of the Transfiguration in New York city Wednesday and many of the foremost women of the nation were among the guests. It was that of Herman Stump, of Baltimore, Md., to Miss Marie Fernandez de Velasco, half-sister of J. H. Flagler, the capitalist.

Miss de Velasco, who resides at the Hoffman House, is one of the most prominent Southern women in New York. She is a member of the New York Chapter, Daughters of the American Revolution, and is noted for her broad charity and personal accomplishments. She is said to be worth upwards of ten million dollars.

Colonel Stump has been a leading figure in Maryland politics and social life for more than forty years. He served two terms in Congress, and under President Cleveland was Commissioner of Immigration. He is a lawyer of great force and learning and is beloved throughout the State.

He and Miss de Velasco met at the Charleston Exposition and were introduced by Governor John Walter Smith on the occasion of the Maryland Day celebration.

More than 1000 invitations were issued and they embraced many of the leading Senators, President Roosevelt, ex President Cleveland, many of the foreign Ambassadors and at least a dozen Governors. A special train conveyed upwards of one hundred prominent Marylanders to New York to witness the ceremony.

An Agricultural Building at the Pennsylvania State College.

The appropriation bill for The Pennsylvania State College as passed by the Legislature and approved by the Governor includes the following items of special interest to the friends of agricultural education.

"For the maintenance of the Department of Agriculture the sum of twelve thousand dollars or so much thereof as may be necessary.

For the purpose of assisting in the erection, equipment and furnishing of a building or buildings to be used for the purpose of instruction and investigation in the various branches of agriculture and for the purchase of all necessary apparatus, therefor the sum of one hundred thousand dollars; provided that, before any part of this appropriation shall be paid, the Trustees of the State College shall file with the Auditor General plans and specifications and estimates satisfactory to him, showing that the entire cost of erecting, completing, furnishing and equipping any building or buildings upon which any part of this appropriation is to be expended will not exceed the sum of two hundred and fifty thousand dollars."

Thus the long struggle to secure an Agricultural Building has been crowned with abundant success and we have the assurance of a home for the Agricultural Department of the College equal if not superior to that possessed by any institution in the United States. The erection of the Dairy Wing of the building will be begun at once and it is confidently expected that it will be ready for use next winter, and the Creamery Course will therefore be given with greatly increased facilities.

The provision for maintenance, unfortunately, is still meagre. The Director of Farmers' Institutes, however, The Hon. A. L. Martin, who introduced the first bill for an Agricultural Building and whose interest in agricultural education needs no comment, has most generously volunteered to forego for the present year the aid which the College has been accustomed to render at the Institution. This action on his part renders it possible for the College to resume the Short Winter Course in Agriculture which has been suspended for the past four years. This is a thoroughly practical course of twelve weeks designed to meet the wants of those who cannot afford the time or money necessary for the longer courses, and yet desire a better preparation for t lifheire-work than can be acquired on the farm alone. The studies of this course are substantially what would be taught in an agricultural high school. Any student who has acquired an ordinary common school education may take the course with profit, and for the present, no entrance examination is required.

Elk's Teeth.

In F. P. Blair's jewelry store is an interesting display of elks' teeth. The precious ivories are the property of Mr. Cancie, advance agent for Byron Spaun's vaudeville show. Very little is known by the public in general concerning elks' teeth and until a few years ago they had no value. One could at one time buy the teeth throughout the west from different tribes of Indians for five or ten cents each. Now an elk's tooth from the same Indians costs from $5 to $10. No other product in the United States has increased so much in value in a short time.

Nearly all members of the B. P. of E. wear an elk tooth as a watch charm or for cuff buttons. Therefore the scarcity of the teeth. An elegant pair of teeth with a history may be seen in jeweler Blairs window. This pair of teeth was presented to Mr. Cancie by Bald Face, an Ute chief of the Ute Indian Reservation near Pocatella, Idaho. The teeth were taken from the only bald face elk known in Idaho and which was killed by Bald Face's father. Big Elk, the morning Bald Face was born, hence the name, Bald Face.

The friendship between Mr. Cancie and Bald Face has been like that of father and son for several years. Mr. Cancie attended Princeton college and was a room mate of Bald Face's son, Melted Snow, and every year for the past five years Mr. Cancie has visited the Ute Reservation in Idaho to see Bald Face. This year the latter presented Mr. Cancie with these remarkable teeth and their history, saying: "Take these, my son's brother, and keep them till your death."

WAS WASTING AWAY.

The following letter from Robert R. Watts, of Salem, Mo., is instructive. "I have been troubled with kidney disease for the last five years. I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well."—C. M. Parrish,

An Old Citizen Gone.

Jonathan C. Johnson, the father of Joel Johnson, of this place, died at his home in Lock Haven Wednesday morning of bronchitis.

In speaking of his death the Lock Haven *Democrat* says.

Mr. Johnson was aged 77 years last January, having been born at Hecla, Centre county. He came to Lock Haven 52 years ago, and has been a conservative, honorable and respected citizen ever since. Soon after his arrival here he purchased a lot on which he, with his own hands, built the house on Main street, one of the first to be erected in that section, which the family still occupy and where Mr. Johnson passed away.

Mr. Johnson was the oldest member of LaFayette lodge, No. 199, F. and A. M., having been initiated into the order September 27, 1852. He always took an active part in Masonic affairs, among the members of which he stood in high esteem.

Deceased is survived by his wife, two sons, Everett, of this city and Charles, of Renovo; one daughter Ada, at home, and also by three brothers, Joel, of Bellefonte; Daniel, of State College, and Peter, of Milton.

—During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. C. M. Parrish.

Brave Williamsport Girl Saves Little Cousin's Life.

Charles, a three year old child of Walter Thompson of South Williamsport, narrowly escaped being run over by the switch engine near Maynard street, that place, about 11 o'clock Tuesday morning, and but for the quick action of Miss Lizzie Shemery the little fellow's life would have been crushed out. The News says that Miss Shemery had gone to Zuber's store, just across the railroad from her home, and did not know that the little fellow was following her. She entered the store and it was five or ten minutes before she came out. In the meantime the little chap had crossed the yard of his home and was crawling over the railroad track in front of the approaching switch engine. Miss Shemery took in the situation at a glance, ran and made a leap, landing near the child. She caught him and was off the track just in time, as the first car was not more than five feet from her. Miss Shemery and the Thompson baby are cousins.

Circus Girl's Death Due to Small Pox.

Gertrude Schroeder, aged 18 years, whose home is in Dayton, O., and who was one of the ballet in the Robinson circus, which showed at Altoona recently, died at the county contagious hospital Wednesday morning at 5 o'clock, of hemorrhagic smallpox. When the show was at Philipsburg on May 23, Miss Schroeder and another ballet girl, Nellie Currier, aged 15, of Cincinnati, were taken ill. A physician was summoned and he diagnosed the symptoms as those of typhoid fever. The girls were placed in one of the cars, in charge of their mothers, and all the other members of the company who had been sleeping in the car managed to double up in other cars on the ride to Altoona. The girls not getting any better, when the show reached that city another physician was called, and the cases decided to be suspicious ones, and they were removed to the county home, and in a short time both devoloped cases were of smallpox Miss Schroeder a bad case and Miss Currier a very light one. Miss Schroeder steadily grew worse and died as above stated. The remain were interred at the county home. In the meantime Miss Currier has improved and will shortly be released from quarantine. The show in the meantime took all precautions to prevent the disease from spreading and no other cases have developed.

LADIES AND CHILDREN INVITED.

They do not purge the system. Even a double dose will not gripe, weaken or sicken; many people call them the Easy Pill. W. H. Howell, Houston, Tex., says nothing better can be used for constipation, sick headache, etc. Bob Moore, Lafayette, Ind., says all others gripe and sicken, while DeWitt's Little Early Risers do their work well and easy. ENGAGED.

Marriage is very largely an accident. In few cases do men or women set up a standard of manly or womanly excellence and choose by it. In most cases people become engaged as the result of propinquity rather than because of any deep rooted preference.

And so it often happens that the wife enters upon the obligations of maternity just as thoughtlessly as she entered on the marriage relation, because no one has warned her of the dangers she faces.

Thousands of women become invalids for lack of knowledge of themselves. It is to this large body of women that Dr. Pierce's Favorite Prescription comes as a priceless boon, because it cures womanly ills.

"Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

"After my first child was born," writes Mrs. Jordan Stout, of Fawcettgap, Frederick Co., Va., "my health was very poor for a long time, and last winter I was so bad with pain down in back I could hardly move without great suffering. My husband got me a bottle of Dr. Pierce's Favorite Prescription and a vial of his 'Pleasant Pellets,' which I used as directed. In four days I was greatly relieved, and now, after using the medicine three months, I seem to be entirely well. I can't see why it is that there are so many suffering women when there is such an easy way to be cured. I know your medicines are the best in the world."

Dr. Pierce's Pleasant Pellets the favorite family laxative. One 'Pellet' a laxative, two 'Pellets' a cathartic dose.

POSTAL CLERKS ACCUSED

T. W. McGregor and C. E. Upton Charged With Conspiracy.

OTHER ARRESTS ARE EXPECTED

It Is Alleged They Received "Rake-Offs" From Contracts for Leather Mail Pouches—Grand Jury Returns Indictment Against A. W. Machen.

Washington, June 6.—As a result of the sweeping investigation of affairs at the postoffice department, Thomas W. McGregor, a clerk in charge of the supplies for the rural free delivery service, and C. Ellsworth Upton, of Baltimore, one of McGregor's assistants, were arrested on the charge of conspiracy, with Charles E. Smith, of Baltimore, to defraud the government in the purchase of the leather pouches furnished the rural carriers throughout the country. Their cases make seven arrests in all since the investigation began. Other arrests are expected later. Both were released on $5,000 bail.

The complaint sets forth that McGregor and Upton agreed with Smith to obtain for him orders for many thousands of leather pouches such as are used by rural letter carriers. The price agreed upon was 90 cents per pouch; the actual value was less than 50 cents. Smith was to pay to them the difference between 90 and 50 cents per pouch. It is stated at the department that the actual number of pouches which were purchased exceeded 20,000, for which the government paid 90 cents each, or $16,000 in all. Smith received and retained of this for his own use $10,000. The remaining $8,000 was paid toMcGregor and Upton. The government could have bought the entire number of pouches from the manufacturers for $8,000.

A. W. Machen Indicted.

The grand jury has reported an indictment against August W. Machen, formerly superintendent of the free delivery service of the postoffice department, who was arrested several days ago, charged with sharing profits on government contracts for letter box fasteners. The indictment was brought for violation of Section 5501 of the revised statutes, the penalty for which is a "fine not more than three times the amount asked or received, and by imprisonment not more than three years."

The amount which the indictment states he received illegally is $18,987.79. Mr. Machen was in court with his attorneys when the grand jury reported, and immediately gave bond in the sum of $20,000 for his appearance in court. His sureties were O. G. Staples, Davis Moore, F. M. Criswell and Emanuel Speich, of this city. The trial will occur in October.

By securing an indictment against Machen before the day set for his preliminary hearing before Commissioner Taylor, the government has scored a victory in that it has avoided the necessity of showing its hand at a preliminary hearing. The proceedings before the commissioner now will be abandoned.

THE REFORMED CHURCH

General Synod Makes Sweeping Changes in the Liturgy.

Asbury Park, N. J., June 6.—At the meeting of the Synod of the Reformed Church the committee appointed by the general synod of 1902 filed a report making sweeping changes in the liturgy, especially in the communion and marriage services. The Rev. Dr. George E. Bishop, of East Orange, pleaded earnestly for the retention of the ancient form of service. The revised from of baptismal service and the form for the recognition of members from sister churches were adopted. The discussion on the other points was still in progress when the hour for adjournment was reached.

The Deutschland Proceeds to Sea.

New York, June 6.—The Hamburg-American line steamship Deutschland, after being stuck in the mud off the Hook for nearly 24 hours, was worked free at high water and proceeded to sea. It took the combined efforts of seven vessels and her own powerful screws to get her into deep water, and once back into the channel she headed for the sea and crossed the bar under the escort of small boats. She was not injured, and it is expected that she will make her average speed in crossing. The passengers did not appear to be very much excited over their delay, and those who were able to shout to the tugboat men were anxious for the latest news and seemed to regard their experience with good humor.

Precisely That.

Prominent Men Take Part in Golden Jubilee Exercises.

Lancaster, Pa., June 8.—The opening exercises of the golden jubilee of Franklin and Marshall College, celebrating its 50th commencement, began in this city yesterday with the baccalaureate sermon by Rev. Dr. Stahr, president of the college. In the afternoon a men's meeting was held at the Y. M. C. A. building, addressed by a number of the alumni, and last night a joint church service was held in the First Reformed Church, where President Moffatt, of Washington and Jefferson College, preached to a large audience.

The exercises will be continued all week, and about 50 college presidents and representatives of the leading northern and eastern universities and colleges will participate. On Thursday the degrees will be conferred, and addresses will be made by the visiting representatives of other colleges and universities, of whom nearly 50 are expected to be present. The exercises will close with a banquet on Thursday night, at which 350 covers will be laid.

SANK IN COLLISION

French Steamer Liban Run Down by the Insulaire Near Marseilles.

OVER 100 PERSONS PERISHED

Force of the Collision Cut Great Hole In the Liban's Side, and In Short Time She Went Down—Desperate Efforts to Rescue Those on Board.

Marseilles, June 8.—A terrible shipping disaster occurred a little distance from this port, when two passenger steamers, the Insulaire and the Liban, both belonging to the Fraissenet Steamship Company, of Marseilles, came into collision. The Liban sank and over 100 of her passengers and crew perished.

The steamer Liban left Marseilles on her regular passenger trip to Bastia, Corsica, and was run down and sunk by the Insulaire off the Maire Islands. The collision was witnessed from the pilot boat Blechamp, which was about two miles distant. The Blechamp immediately repaired to the spot to render assistance. The force of the collision had cut a great hole in the Liban's side, and she already was making water rapidly. Her captain saw the only chance was to run the steamer aground, and the Liban was headed full speed for the shore; but within 12 minutes of the collision, and while still in deep water, the fore part of the steamer plunged beneath the waves, and a few minutes later she had entirely disappeared.

In the meantime, the Blechamp, the steamer Balkan, also belonging to the Fraissinet company, and other vessels had drawn near the sinking ship and were making desperate efforts to rescue those on board. The Blechamp picked up 40 persons, many of whom were at the point of exhaustion. The Balkan rescued 37 passengers, and in addition to the passengers 17 of the crew were also saved.

Officers of the steamer Balkan describe the scene just before the Liban disappeared as a terrible one. As the vessel was sinking she was inclined to such an angle that her masts struck the water, causing an eddy which made the work of rescue most difficult. A mass of human beings were clinging to the foundering vessel and uttered despairing cries as she went down. At the same time the boilers exploded, intensifying the horrors. For a few moments the victims were seen struggling in the sea, then the waves closed over them and all was silent. Of about 200 passengers who were aboard the Liban it is feared that at least half were drowned.

The Balkan launched three boats and the other vessels did all possible to save the victims in the short time that elapsed between the time of collision and the sinking of the Liban.

Confederate Services at Arlington.

Washington, June 8.—The first memorial services in honor of the Confederate dead interred in the Confederate section at Arlington Cemetery were held yesterday under the auspices of the various Confederate associations of the city. They comprised the decoration of the graves with flowers, an address by Hon. John V. Wright, of Tennessee, and the placing of a beautiful wreath upon the graves of the "unknown Union" dead buried there. Among the flowers contributed for the occasion were some sent from the White House conservatory by President Roosevelt to Miss Nannie Randolph Heth, daughter of General Harry Heth, of Gettysburg fame. Miss Heth, assisted by Dr. Samuel E. Lewis, distributed these upon every one of the 264 graves where Confederate dead rest.

Escaping Murderer Kills Death Watch

Anaconda, Mont., June 8. — News from Glasgow, Mont., is that a jail break took place there. William Hardee, a condemned murderer awaiting execution, killed Charles William, his death watch, with a Winchester rifle, which he secured from the jail kitchen. He and the only other prisoner in the jail then took the keys and escaped. Both men are well armed. They swam the Missouri and are being pursued by a big posse. Hardee is expected to fight to the death, as he has no hope, the supreme court having refused him a new trial.

A large crowd on the wharves and crafts in the harbor gave him a hearty send-off.

Mrs. Ella Smith of No. 48 Miller St., Newark, N. J., says: "Last summer I was so weak I staggered when I walked. I was very nervous, easily excited, could not rest nights, blood thin, the appetite poor, hands trembly—I was indeed in a low stage of health. About this time I got a box of Dr. A. W. Chase's Nerve Pills and though everything else had failed, these pills put me on my feet in good health, and that quickly too. EDITORIAL.

THERE is now one physician to every 600 persons in the United States.

MRS. CARRIE NATION has told a Mormon audience that her husband considers one wife enough. Poor Nation.

OUR Pine Glenn correspondent remembered us with an interesting letter this week, the first for some time. Let us hear from you often.

LITTLE JACK ROCKEFELLER has lost a million dollars trying to corner the leather market. The public may now anticipate another rise in the price of coal oil.

AFTER all, the honest man in public office need fear nothing the wicked newspapers may print about him. The man who dreads publicity is he who deals in "irregularities,"

THERE is no difficulty attaching to the Postoffice scandal. The whole matter can easily be probed to the bottom if political considerations are not permitted to interfere.

THE Bureau of Forestry announces that the hardy catalpa tree, planted in reasonably rich soil, will yield a return of from $13 to $22 per acre, beginning with 20 years after planting and continuing until maturity. But it omits to say how much sooner and better returns might come from corn, potatoes or onions.

ROOSEVELT SURE.

The only State which it was feared would hold back in the earliest possible presentation of Roosevelt for the Presidential nomination was Ohio, because of Hanna's attitude, but he too assents, and the northern mother of Presidents falls into line.

Of course, the presentation of anybody for the nomination by a State convention a year in advance of the meeting of the national assemblage is an unusual thing. Yet several States of the Union have done that very thing two years before the meeting of the big gathering.

In 1902 the Republicans of Missouri, Kansas, Minnesota, Iowa, Colorado, Utah, Idaho, Montana, California and Washington, in the West, in their State conventions, put President Roosevelt forward for the nomination in 1904. So did Pennsylvania, Massachusetts, Connecticut, Rhode Island, Delaware and New Hampshire, in the East. So did New York, in the same section, although Senator Platt and one or two other Republican leaders in that State said the thing was unprecedented, and ought not to take place.

Alabama and Texas, in the South, likewise came out in 1902 for Roosevelt for 1904. Ohio, in 1902, happened to meet a little earlier than the starting of the Roosevelt nomination movement of that year and hence did not get into the current, although its convention indorsed the Roosevelt administration just as warmly as did any of the State gatherings. In the late convention in Ohio that State fell into line with the States here mentioned. It did this, too, with the customary Ohio heartiness and decisiveness.

All this is displeasing to the Democrats. The only chance they have of carrying the country would be through a division among the Republicans on some serious issue. When the Ohio Roosevelt nomination incident came up a week or two ago the Democrats expected great aid from it. Ohio is in line with the rest of the States in urging President Roosevelt's nomination for 1904.

If any Democrat in the United States can discover any important point on which the Republican party is divided let him speak out now.

THE FLOODS IN 1903.

Great damage was done last week by the unprecedented rise of the Missouri and other Western rivers after twelve days of continuous rain.

The loss in life and property at Topeka, Kansas City and Des Moines was frightful. Many lives have been lost—just how many may never be known—while the property destroyed aggregates in value many millions of dollars. Thousands of persons are homeless, and all of this is likely to be followed by sickness, which may add greatly to the calamity.

The railroads have suffered immensely, not only from the stoppage of traffic but also from the destruction of bridges, tracks and buildings. The fires which have, as a result of the flood, done so much damage in Topeka and elsewhere are unusual at such a time.

The rains have been continuous in many parts of Kansas, Nebraska, Iowa and Missouri, although not long ago there were reports of a drought. In some places where the water has been several feet deep, flowing in a swift current, nothing of the kind has ever been known before. This accounts for the large loss of life.

Help will be needed for the thousands who are homeless.

WE have three new correspondents this week. They are Penn's Creek, Romola and Gatesburg. Their letters are bright and interesting and we hope they will continue to favor us with news from their localities.

THE Governor of Kansas makes the unique announcement that he will appoint no man to office who has not something laid away for a rainy day. And most men imagine that a public office is the place to lay away something for a rainy day.

THE TARIFF REFORM DEVOTEE.

Grover Cleveland seems to have a remarkable capacity for not learning by experience. He sagely repeats the advice of 1892—to make Tariff Reform the issue, as if nothing had happened during the last twelve years. With Mr. Cleveland Tariff reduction is the sacred solvent for everything. He can think of no sacrifice too great for the nation to make to secure Tariff Reform. He seems to have a genius for curing the "evils" of prosperity. Well, he certainly has demonstrated that his doctrine will do this. He did it successfully in 1893, and if the people will only give him a chance he will do it again in 1904. For curing the evils of prosperity, demand for labor, high wages and extension of business, he can be trusted to produce results every time.

WE call the attention of our readers to our interesting letters from out-of-town correspondents this week. There are nineteen in all. Quite a number, don't you think? We hope to make this a special feature of our paper and desire a correspondent in every town and village where we are not already represented. Write us in regard to the matter.

Farmers' Cattle Killed on the Scootac Branch.

A number of farmers from Bald Eagle valley had a novel experience in driving cattle Tuesday. The farmers had driven their cattle to the Scootac region, where, as is the custom, they run at large during the summer season. A number of head had wandered to the river and on Tuesday the farmers assembled at the mouth of Scootac run for the purpose of driving their stock back to the pasture ground.

While going up the Scootac creek they met a freight train coming down the branch railroad. The cattle were on the railroad and the engineer being unable to stop the train the engine killed six head and injured some others. One of the farmers, while endeavoring to get the cattle off the track, had a narrow escape from being run over by the train. The engine was not derailed.

How Do You Figure It Out?

The following puzzle is going the rounds of the press: A banker going home for dinner saw a $10 bill on the curb stone. Of course he picked it up and took the number in order to find the owner. While at home his wife remarked the butcher handed in a bill for $10. The only money he had with him was the bill he had found, which he gave to her and she paid the butcher. The butcher paid it to a farmer for a calf, and the farmer paid it to a clerk who paid it to a washer woman and she owing the banker a note of ten dollars, went to the bank and paid the note. The banker recognized the note as the one he had found, and which up to date had paid $50 of debt. On careful examination he discovered the bill was counterfeit. Now what has been lost by the transaction and by whom?

The Hospital's Needs.

The management of the Bellefonte Hospital desire that we make known through our columns that the Hospital is sadly in need of Rugs, matting or stripe of carpet to place upon the wards of the building. Donations sent to the Hospital of whatever character they may be, will be highly appreciated and properly acknowledged.

CHILDRENS AID SOCIETY.

Held Their Annual Convention at Meadville Last Week.

The annual Convention of the children's Aid Society of Western Pa., convened in Meadville last week, a representative from our Bellefonte society has given us a condensed report of the proceedings. 3041 homeless children have been cared for within the past 14 years 975 children under care at the present time.

The past year has been the most successful one on record for Centre Co. That is, they have worked harder and their labors have shown better results, and the community seems better awakened to the necessity of caring for the unfortunate little ones. A report read from Centre Co. speaks in kindly terms of the overseers of the poor, that at all times have the ladies labored with them most harmoniously for the cause. The Editors too share with the praise, as they have always recognized our good work in their columns by expressing kindly and cheering words. The yearly reports for the county shows three deaths, three in hospitals 45 children have passed from care, some have married, as for adopted some transferred to other counties others selfsupporting.

16 are now in good free homes all well and happy.

Deafness Cannot be Cured.

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Six Brothers in the Army.

An item is going the rounds of the press relating the unusual fact that Jesse G. Lucas is the last of six brothers, five of whom were soldiers in the war of the rebellion, while their father was a soldier of the war of 1812. Lock Haven now comes forward with a veteran of the civil war, whose family record as soldiers goes a little ahead of the Lucas family. Reference is had to Stephen D. Bilby, janitor of the First ward school building Lock Haven. Mr. Bilby is one of six brothers, every one of whom enlisted and saw hard service in the war of the rebellion. Four went to the front from Clinton county, namely; Henry, Joseph, Edward and Stephen; Lott enlisted from Luzerne county and George from Michigan. The latter was killed in the battle of Fair Oaks, while Henry died at Camp Pierpont, near Washington. Such patriotism as was displayed by the Bilby brothers is worthy of emulation in a similar just and righteous cause, but it is to be hoped that the occasion for its manifestation will not rise again.

The Gasoline Stove Exploded.

James Bailey, the barber, who occupies the shop under Lyon & Company's store, was seriously burned and his shop badly damaged by fire Friday morning about half past eight o'clock.

The circumstances are as follows: Mr. Bailey has a gasoline stove in his shop which he uses to heat water for shaving. While in the act of filling the stove with gasoline, it exploded throwing the burning fluid all over the room setting fire to the place and badly burning Mr. Bailey about the face, arms and neck. An alarm was turned in and both the Logan and Undine fire companies responded promptly. In a short time the fire was put out but the interior of the shop is badly damaged by fire and water.

In addition to the financial loss sustained by Mr. Bailey, he was so severely burned that it was necessary to take him to the Bellefonte hospital for treatment.

—Mr. Isaac Wyland is sick at his home with the quinsy.

A Fine Orator.

Our fellow townsman, A. A. Dale Esq., has made quite a reputation for himself as an orator. One year ago, he was the Memorial Day orator at Bellefonte and fairly electrified his hearers by his eloquence. This year he performed a like duty at Millheim and in speaking of it the Millheim Journal has this to say:

"W. F. Smith introduced A. A. Dale, Esq., of Bellefonte, as the first orator of the day. Mr. Dale's address was certainly fine. He started with the cause and beginning of the Civil war and ended with the Spanish war and why Memorial day should be observed. He was listened to very attentively by the large audience assembled and a finer oration was never delivered in Millheim on Decoration day.

REITERATES CHARGES

S. W. Tulloch Writes Another Letter to Postmaster General Payne.

DENIES FALSE VOUCHER STORY

He Says Replies of Former Postoffice Officials Do Not Disprove the Charges He Made Against the Department.

Washington, June 8—Seymour W. Tulloch, formerly cashier of the Washington city postoffice, has written a letter to Postmaster General Payne, in response to replies received from Postmaster Merritt, of the Washington postoffice, and others to the charges of maladministration made by Mr. Tulloch against the management of the local postoffice. A large part of Mr. Tulloch's letter is in defense of counter charges made by Mr. Merritt against Mr. Tulloch. Mr. Tulloch says that the charge that under his (Tulloch's) regime as cashier of the Washington postoffice quarterly payrolls were required to be signed in blank even if true would but "produce a smile in Washington, where probably the greater portion of governmental employes sign payrolls in blank." But he says that the fact is that when postal clerks at a distance or other employes expecting to be absent were, at their request, and as a personal favor, given the privilege of signing in advance, the law requiring the voucher going to the auditor to be personally signed by the employe. He says that at the time of payment all figures had been previously filled in, and that false payments could not but have been detected easily and fraud was impossible. The charge that "a false voucher" had been put in while Mr. Tulloch was cashier, he says, was only an attempt to discredit him, and even Mr. Merritt admits that the transaction was "directed by the postmaster, recognized by the assistant postmaster and the money retained paid to persons duly designated."

Mr. Tulloch's letter then continues:

"In closing, may I state that it has not been shown to the contrary in any of the replies you have published that irregular payments were made from local funds instead of by the proper disbursing officer of the department; that an attempt was made to cause all employes to bond under a single blanket bond with some favored company; that the regulations of the department were violated in forcing a letter box, in which prominent officials were said to be interested, upon the public, even to the unauthorized use of the postmaster's authority and against his protest; that payments were directed for articles not delivered; that persons were paid two or three salaries and performed little or no service; that a physician was illegally appointed, whose position was a sinecure. I have been told that a $300 operating table was purchased for private use and charged to the department as postal furniture; that promotions were suggested upon proviso of division with high officials in the department; that persons were appointed from whom no service was required upon a complimentary roll; that arrears in Porto Rico were not fully recovered; that useless junkets were frequent to Porto Rico and Cuba; that persons paid from the military postal service had their salaries continued for months after ceasing all service, and that salaries were also continued after service had ceased to take up irregular expenses."

As to the reply of Perry S. Heath, Mr. Tulloch says:

"All that is necessary is to compare my specific charges with his general denial." He then reaffirms that his representations remain in all essential particulars true and not disproved, and closes with a denial that there is any office within the gift of the postoffice department that he would accept, or that he ever authorized his friends to seek his reinstatement.

$400,000 Blaze at Buffalo.

Buffalo, N. Y., June 8. — Fire destroyed the Buffalo Carting and Storage Company's plant and contents, entailing a loss of $400,000. Several small frame buildings adjoining the warehouse were crushed to the ground when the heavy walls on either side of the burning buildings fell. Squads of firemen narrowly escaped being caught under the piles of brick. Several of them were hit, but no one was seriously hurt.

Prince Henry's Flagship Aground.

Paris, June 2.—The German cruiser Ariadne, flagship of Admiral Prince Henry of Prussia, which arrived at Brest with the rest of the German squadron, grounded amidship on the extension of the breakwater now in course of construction at Brest. The ship was floated, but is leaking badly.

Have Big Claim Against Government.

D. L. Nikolson, a postal clerk, who runs on the Alabama-Great Southern railway, says that the postal clerks of the United States have a claim aggregating $14,000,000 against the United States postoffice department. Nikolson says his claim will be tried before the United States court of claims. The claim is based upon the section of the postal laws which prescribes that chief clerks and railway postal clerks shall be paid their actual and necessary expenses while actually traveling on business of the department.

BODIES OF FLOOD VICTIMS FOUND

Dead at Topeka Reaches 78, and 30 People Are Still Missing.

Topeka, Kan., June 6.—The dead in the Topeka flood now number 78. A boatman reported that seven bodies had been found near the north end of Harrison street.

People working in the flooded district fear that the list of dead will not be far from 100 when all is over. Thirty or more people are now classed as missing. Without doubt some of the bodies will never be recovered.

The water has now receded over eight feet and is going down an inch every hour. In the part of town north and west of the Rock Island Railway the damage has been very great. The houses were mostly small and felt the full force of the current. The yards were swept clean of outbuildings and many of the houses turned a quarter of the way around and partially slipped from their foundations. The greater part of North Topeka is a great waste of sand, which is piled up over the streets, house floors and railway tracks, burying the city from a mere coating to a depth of two or three and in some places four feet. In the west part of the city the sand banks are everywhere. Generous responses are being made to the appeals for aid. From all over the country telagrams are coming authorizing the officers here to draw on various organizations for funds.

At Kansas City.

Kansas City, Mo., June 6.—The water has receded from one-tenth of the flooded area and the uncovered district was promptly reoccupied. The territory reclaimed included the major part of the stock yards. There is a great demand for unskilled labor to clean out cellars, yards, etc., and to carry away the debris. Two bodies were found in the West Bottoms. They were those of a Greek railway laborer and a negro cook. The verified death list now contains 10 persons.

A temporary bridge is being constructed across the Kansas river to carry the city aqueduct, and pure water is hoped for within two days. The carcasses of dead animals at the stock yards are creating a dreadful stench. The bodies are being towed into the river to float down the Missouri. There is no other means of disposing of them, for the entire stock yards district is still inundated.

LEVEE BREAKS

The Loss Will Run Into Millions—Over 100,000 Acres Flooded.

Louisiana, Mo., June 6.—The Sny levee broke just below this city, and the Mississippi is now falling here at the rate of six inches per hour on account of the break. The Sny is the most important levee on the north end of the river and is 70 miles long. In some places it is 28 feet high and 80 feet across the base. It incloses a fertire farming section from three to seven miles wide, containing more than 100,000 acres.

There are several towns within the district, the population of which is probably 10,000. This district has not been overflowed since 1888, and the damage will run into the millions. The break occurred at a point used by the railroad as a roadbed. It was unexpected until just before the break occurred. When seen a rush was made to repair it, but 40 yards went out and a torrent poured through.

Important Postal Decision.

Washington, June 6.—The court of appeals of the District of Columbia in an important opinion reversed the lower court and sustained the contention of the government that the postmaster general was empowered by law to exclude from the mails at second class postal rates the publication known as the Riverside Literature Series, issued by Houghton, Mifflin & Co., of Boston, and also "Masters in Music," published by the Bates & Guild Company, of Boston. The opinion is quite sweeping in the compresensive discretion it gives to the postoffice department to classify mail matter. Reforms in second class mail matter is now assured.

Trolley Car Turns a Somersault.

Pittsburg, Pa., June 6.—A traction car on the Wilmerding branch of the Pittsburg Railways Company jumped the track near the Glenwood bridge, and all of the 16 passengers aboard were more or less hurt, none of them seriously. The track at that point runs within about 18 inches of the Monongahela river bank and when the car jumped it turned a complete somersault over the 12-foot embankment, landing within three feet of the water.

A Policy of "Compliments and Bows."

Berlin, June 6.—In a series of speeches which he has just delivered in the district of Jerichow, Prussia, Prince Herbert Bismarck sharply criticises the attitude adopted by German diplomacy toward the United States. Formerly, he said, Germany, begged nobody's friendship. Today, however, it is customary to ignore the traditions of Bismarck. "Our policy has become one of compliments and bows," he said.

ENVELOPED IN SMOKE

Atlantic Coast States Wrapped In Black Cloud From Forest Fires.

Philadelphia, June 6. — The forest fires that swept through the upper part of New Jersey and the Adirondack region in New York continue to burn fiercely, and dense clouds of smoke hung like a pall over the entire New England Valley, as well as over New York, New Jersey and portions of Pennsylvania.

So dense was the fog and smoke clouds that shipping along the Delaware river was seriously interfered with, and the ferryboats had to proceed with the utmost caution in crossing from Camden to Philadelphia. Steamers bound up the Delaware have been compelled to anchor, and for a hundred miles down the river the fog and smoke envelope vessels in an almost impenetrable mantle of darkness.

From every station from Eastport, Me., to Washington, the great, black cloud was reported. Already thousands of acres of pine timber have been destroyed in New Jersey along the line of the New Jersey Central Railroad, and there is no prospect of the fires being extinguished until there is a heavy rain storm.

MAINE'S GREAT FIRES

Millions of Dollars Loss and It Will Take Years to Repair Damage.

Bangor, Me., June 6.—The situation in Northern and Eastern Maine is terrible. Farms are drying up for lack of rain, crops worth hundreds of thousands of dollars are ruined, entire townships of valuable timberland are laid waste, and hundreds of homes, mills and factories have been destroyed by forest fires. To estimate the loss of Northern and Eastern Maine in dollars and cents is impossible, but it will take millions of dollars and years of labor to put this section of Maine in as good condition as it was two months ago.

Latest advices say that between Houlton and Millinocket the entire forest is ablaze. The town of Braggville, with 50 or more houses and stores, is completely wiped out.

Marine Firemen Adopt New Scale.

Norfolk, Va., June 6.—The marine firemen of this port have decided on a new scale of wages, which if not met by the boat owners is likely to tie up all the harbor craft. The scale is an advance of from $5 to $10 a month over the old scale and will be demanded not only by the 250 white firemen of the Norfolk branch of the Atlantic Coast Marine Firemen's Union, but by the 280 colored firemen, who also are well organized here. The agreement between the white and colored workers is the result of a joint meeting of delegates from both bodies.

Chicago Laundry Strike Settled.

Chicago, June 6—The laundry strike, which was begun here May 1, has been settled, and the strikers will return to work Monday. All grievances are to be submitted to a board of arbitration consisting of three representatives of the employes and a like number of owners. These six are to choose a seventh member. Both sides have signed the agreement and the decision of the board is to be final.

Big Swindle Exposed.

Los Angeles, Cal., June 6.—By the arrest of Henry Christy and A. J. Taylor, president and secretary, respectively, of the National Construction Company, on two separate charges of obtaining money by false pretenses, it is asserted that a big swindle has been exposed. The amount involved in the alleged fraudulent operations is estimated at from $40,000 to $80,000. Christy and Taylor were appraisers for the Continental Society in Los Angeles. It is alleged that through the National Construction Company various properties were bought and sold, signatures thus being obtained. Loans on these properties, appraised at inflated values, were then secured from the loan society.

To Consider Davis Memorial.

Richmond, Va., June 6.—A call has been issued for a meeting of the board of directors of the Davis Monument Association to be held here June 10 to consider what form the memorial to Jefferson Davis, to be erected in this city, shall take. This is the result of the inability of the executive committee to erect an arch with the $50,000 available.

Berlin, June 6.—Prince Ferdinand Maximilian, head of the German house of Isembourg & Budingen, was burned to death in his castle at Wachtersbach.

River Steamer Fired On.

Evansville, Ind., June 8.—The county officials are investigating a peculiar attack on the steamer Park City on the way for Bowling Green, Ky., just as she was entering the mouth of Green river. The steamer was fired on by several men, and their fire was returned with Winchesters from the boat. The passengers were panic-stricken, but none were hurt. No cause is known for the attack.

"WORSE THAN AMERICAN MOB"

Director of Russian Police Describes Kishineff Massacre.

New York, June 6.—The Christian Herald, in response to a cablegram sent to the czar asking for an official report of the occurrences at Kishineff, has received a reply from the director of the Russian police department. The reply in part is as follows:

"St. Petersburg, June 4.—Russia's agricultural and laboring population is ill at ease, living the common life with Jewish inhabitants of widely developed commercial instinct; hence there is constant antagonism, the material differences in racial and religious character coming to the verge of frenzy at the least possible occasion."

After giving the view of the police of acts that caused the massacre, the reply continues:

"What goes far to prove the momentous character of the outbreak in letting loose the popular passions with the strength of natural forces, is that on Monday morning the Jews, wishing to intimidate and inflict punishment on the Christian workers, began assembling on the market place in groups, armed with sticks and other weapons. The Jews, being the more numerous, had the best of it in the two first encounters, and a Christian was seen to fall, receiving a bullet wound. This called forth the popular passion in all its abject force and abomination, the Russian peasants, when driven to frenzy and excited by race and religious hatred, and under the influence of alcohol, being worse than the Americans who lynch negroes.

"In the end, the town having been divided into districts, with a special military command in each, the disturbances ceased on Monday evening. In consequence, the governor, the chief of the police and some other officials were dismissed outright, many hundreds of rioters are in prison, and hard work in the Siberian mines awaits them. The Russian government is the first to disapprove of such horrid acts of violence, but it cannot, in compliance with the requests of a radical and revolutionary press, give the Jews new rights of citizenship, as this would be sure to drive the Russian population to new excesses against the Jews, who are hated by the peasants with such extraordinary force."

SUED FOR USING OLEO

Jefferson County, Pa., Commissioners Will Plead Guilty.

Harrisburg, Pa., June 6.—Dr. B. H. Warren, state dairy and food commissioner, has directed Division Agent James Foust to bring suit against J. N. Kelly, superintendent of the Jefferson county almshouse at Brookville, and the county commissioners, H. D. Haugh, Al Haugh and Newton Webster, for furnishing oleomargarine to the inmates of the county almshouse. The county authorities have advised Commissioner Warren that they did not know they were violating the law in feeding oleomargarine to the inmates of the institution, and it is said they will plead guilty.

Russia Occupying Manchuria.

London, June 6.—According to the Pekin correspondent of the Times, Russia is daily establishing herself more solidly in Manchuria and has not made even a pretense of evacuating the Kirin province. The building of barracks and houses for permanent occupation continue with great activity, but Russian officers deride the possibility of a war with Japan. Thousands of Chinese coolies are entering Manchuria and are working on the far western section of the railway.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

MINERS NEW STAND

Judge Gray's Statement Taken as Vindication of Their Position.

THE OPERATORS MUST RECEDE

Prominent Mine Workers Say Unless They Do a Suspension of Work Will Follow—Representatives On Conciliation Board Must Be Recognized.

Wilkesbarre, Pa., June 6.—Since the reported statement of Judge Gray, taking sides with the miners in their contention that their first conciliation committee was legally elected, the miners have taken a new stand, and prominent officials of the mine workers in this city stated that there would very likely be a suspension of work unless the operators receded from their position. The opinion of the chairman of the coal strike commission is regarded by the miners as a vindication of their position, and has stirred them to resist the stand of the companies' representatives and to insist on the recognition of their board as first selected.

A prominent official of one of the local coal companies here stated that he believed the operators' conciliators would have no objection to Messrs. Nicholls, Dettrey and Fahy if the latter were elected by the coming miners' convention to represent the latter on the board.

"The operators do not object to the personnel of the mine workers' representatives," he said. "In fact, they would rather deal with these three men than with some others that might be named. The objection is solely to the manner in which they were appointed. As it appears to us, the board members of the United Mine Workers of America appointed their district presidents without asking or consulting the wishes of the men employed in the mines as to their choice. We wish the board to be selected in a manner that will permit of no future disputes as to legality, so that when its award is made it cannot be questioned by miners who might say they had no voice in the selection of their representatives. The questions to be determined are of too great importance to be considered by a board of whose legality or power to act a doubt existed; and as there is a doubt, it will be better for both sides to have that doubt removed by the decision of a miners' convention."

1,000,000 PERSONS STARVING

Distress in Certain Provinces In China is Most Acute.

Hong Kong, June 6.—The estimate of Governor Wong, of Kwang Si province, that over 1,000,000 natives are starving in the territory in his jurisdiction is pronounced here to be approximately correct. The distress in certain districts is most acute. Children and women are freely offered for sale. The rice harvest promises well, but it will not be available for from four to six weeks. Extensive relief operations will be difficult without foreign supervision, which will be hard to obtain in Kwang Si. Assistance has been sent to that province from Hong Kong and Canton, but the funds available are becoming exhausted. The Hong Kong committee will welcome subscriptions. The newly appointed viceroy of Canton, Tsui Chauh Suen, is hastening his journey to his post because of the serious conditions in Kwang Si province.

Wilkesbarre Has a Labor War.

Wilkesbarre, Pa., June 6.—A labor war has begun in this city between the building trades and the contractors. Both sides have formed organizations and are prepared to fight. The trouble began over the hod carriers' strike, when the contractors attempted to put men in their places, and the carpenters and other building trades quit work in sympathy. The contractors now retaliate and refuse work to any and all tradesmen who left another contractor's employ through strikes or sympathy lock-outs. The contractors allege that they have been subjected to much of this petty annoyance and will not stand for it any longer.

Carnegie Has Given Away $100,000,000.

Andrew Carnegie's voluntary gifts to cities, individuals and institutions for various purposes have nearly reached the $100,000,000 mark. Within the last year Mr. Carnegie has given away the largest sum since he began the distribution of his surplus income. More than one-third of the total was given to his native Scotland and to the city in which he grew from a messenger boy to the greatest iron master of the age and in which he laid the foundation of his vast fortune. The total contribution to the state of Pennsylvania amounts to $24,172,300. His gifts, under a general classification, can be summarized as follows: United States, $68,517,472; Scotland, 17,713,750; miscellaneous gifts, $5,000,000; Holland, $1,750,000; England and Wales, $1,354,500; Dominion of Canada, $1,016,500; Ireland, $315,000; Cuba, $252'000; grand total, $90,912,222.

THE SCORE WAS 6 TO 4.

Academy Downs Susquehanna University at Meadowbrook Park.

The Academy boys covered themselves with glory Friday when they defeated the Susquehanna University team by the close score of 6-4. The visitors failed to get a runner beyond third base until the last inning when they made a hard effort to win out and scored four runs. McLafferty had the boys from Selinsgrove at his mercy giving them but seven hits well scattered,

The home boys, inspired by the large crowd of interested spectators, were at their best, batting when hits were needed to score runs, and fielding in professional style. They surely were entitled to their victory.

The Academy is entitled to double credit for their success Friday when it is considered that their opponents were college men. Eby a former Philadelphia League catcher caught for the visitors.

Academy Defeats States Freshman.

The Bellefonte Academy nine went to State College Thursday and defeated the nine of that town on Beaver field by the score of 11-2. Otto pitched for the Academy and his work was of a high order, McCandless gave him excellent support behind the bat. The boys on the hill played an errorless game, McLafferty's home run hit and fine work on third base, McIntosh's beating out of an infield hit to first and Keichline's splendid throw from deep centre to McCandless, cutting off Freddy Robinson at the home plate, were interesting features of the game.

A Searching Rule.

Few housekeepers, it is safe to say, are familiar with William Morris's rule for house decoration: "Have nothing in your house that you do not know to be useful, and believe to be beautiful."

What a restful rule it is, after all, in its severity and simplicity! It bars out all the superfluous little tables, covered with things only made to dust, until, by kind fate they are happily broken, all the superfluous draperies that cumber the earth; all the extra lamps that never are lighted; all the gorgeous chairs that can not be sat on; all the wilderness of ornamental cushions that are for show and not for comfort. It banishes all the fussy little embroidered nothings from the dining-table, and all the useless toilet articles from the bedroom bureau. It makes every room more sane and selfrespecting. It encourages making all the useful material of life as beautiful as it can possibly be made, by expending on it all the thought and taste that otherwise are wasted on keeping numberless useless things in order. It is simple, searching, and it really banishes nothing which has a true place in household decoration.—Harper's Bazar.

Williamsport an Ideal City.

The Williamsport board of trade has compiled and issued a very pretty book showing cuts of the many beautiful buildings in that progressive city and on the opposite side of the pages containing these cuts certain information is given regarding that city's industries and setting forth in a concise manner the railroad facilities, condition of financial institutions, calling attention to churches, schools, sanitary conditions, educational and social advantages and in a most emphatic way holding out inducements to capital to establish industries within their city limits, all of which bespeaks volumes for the progressive spirit of an intelligent, energetic and wide-awake board of trade, who are determined to place their city's advantages and beauty before the outside world in such an attractive manner that will induce those seeking homes to come to Williamsport and locate.

Interesting to Asthma Sufferers

Daniel Bante of Otterville, Iowa, writes, "I have had asthma for three or four years and have tried about all the cough and asthma cures in the market and have received treatment from physicians in New York and other cities, but got very little benefit until I tried Foley's Honey and Tar which gave me immediate relief and I will never be without it in my house. I sincerely recommend it to all.—C. M. Parrish.

Not so Pure as the Rose.

The John H. Sparks show does not seem to be so absolutely pure and clean as represented, if developments at Tyrone Thursday may be counted in making up the estimate. During the day a man named Beeatie, who it is said is manager of the Sparks side show, entered the candy factory of McClintock & Musser on East Tenth street says the Tyrone Herald and purchased a bag of peanuts. In the office at the time were Mrs. McClintock and a couple other ladies besides Mr. McClintock, but Beeatie while he transacted business was slick and light fingered enough to appropriate a gold watch and chain belonging to Mr. McClintock, which was lying on the desk in the office.

Later the watch was missed, and in due time Mr. McClintock swore out a search warrant before Justice Taylor, but concluded not to proceed with the search after getting close to a colored employe of the show who seemed to be dissatisfied with his situation on account of not having been paid recently. The colored man was given a liberal fee and charged with the work of securing Mr. McClintock's watch, which is a valuable gold time piece. Later the man turned up with the watch. But in the jumble as to just who might have stolen the time piece no arrest was made, the show leaving for Houtzdale in the night.

Suspicion rested on two young men who drifted about the town during the day wearing sailors' clothing. Officer Swartzel got on their trail and followed them down to the watering station, where they boarded a box car of a train going west. A telephone message to Altoona put officers there on the alert, and they were arrested and brought back to Tyrone by officer Swartzel who put them through the sweating process without securing any information that would incriminate them. He kept them in the lockup here until Friday afternoon, when he conducted them to jail for train riding.

Scrap Iron in Cow's Stomach.

Twenty-four nails, two pieces of spikes, one wire staple, one piece of corset stay, sums up the scrap iron taken from a cow belonging to L. C. Eldridge, of Mackeyville, by Dr. John Riter, of Centre Hall. The animal has been sick for nearly a year, and finally her case was pronounced tuberculosis and she was accordingly killed. A postmortem examination by Dr. Riter made the astonishing revelations above noted.

Two wire nails with very sharp points and full head, two and three-eighth inches in length were found lodged in the pericardium, a whey-like sack inclosing the heart.

On taking an invoice of the oesophagean canal, leading from the first to the second stomach, a common wire fence staple, two pieces of spikes one and one-half inches in length, and twenty two whole or pieces of nails were to the credit of that part of the cow's anatomy. The nails ranged in length from three-quarters of an inch to two and three-eighth inches. The brute showed no partiality to a particular kind of nail, but had taken with her food both cut and wire nails, long and short nails, thick and thin nails. The combined weight of the iron was three ounces.—Centre Reporter.

Unquestionably Above Reproach.

Most wines upon the market are adulterated, sugared, watered or cooked. Speer's Wines are endorsed by the leading surgeons and hospital nurses as pure, no adulteration whatsoever. Wonderful for the aged, it prolongs their life.

Hold Your Chin Up.

When the organs of the body are lifted up, the chin raised, the chest high, courage and hope are indicated. The mind follows. It is true that one keeps his head up because he is hopeful, but even if hope is lacking, says Home and Flowers, lift up the head and it will come the sooner. Dress a tramp in good clothes and he has a tendency to become too self-respecting to tramp. On a dark day put on the brightest and prettiest gown, and cheerfulness follows.

It is difficult for cheerfulness to express itself in sombre surroundings. If one does not feel like laughing, lift the corners of the mouth and he laughs perforce. Nobility has trouble to express itself in a sunken chest. If the knees are bent and seemingly too weak to support the body, it is easier for them to shake with fear than if they are straight.

TEN YEARS IN BED.

R. A. Gray, J. P. Oakville, Ind., writes, "For ten years I was confined to my bed with disease of my kidneys. It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." Parrish's drug store.
